Nanostructured surfaces

24 - 28 June 2019

Trzebnica, Poland

9th International Workshop on Surface Physics

87th IUVSTA workshop

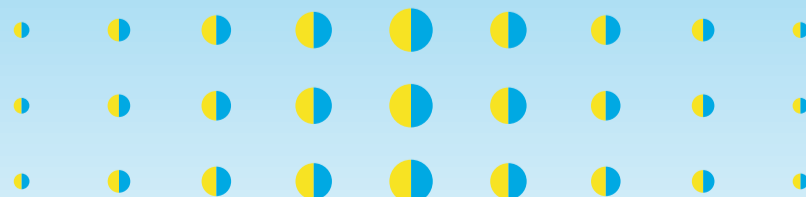

satelite conference to IVC-21

Scope

Nanostructured materials
Electronic and atomic structures
Adsorption, desorption, diffusion
Metals, semiconductors, oxides
Low dimensional systems
Solid-gas and solid-liquid interfaces
Molecules at surfaces
Self-assembly and growth of thin films
Methods of surface characterization

Invited speakers

Grażyna Antczak (Wrocław, Poland)
Peter Broekmann (Bern, Switzerland)
Alessandro Fortunelli (Pisa, Italy)
Mieczysław Jałochowski (Lublin, Poland)
Takashi Kumagai (Berlin, Germany)
Nian Lin (Hong Kong, China)
Olaf Magnussen (Kiel, Germany)
Gareth Parkinson (Vienna, Austria)
Talat Rahman (Orlando, USA)
Frances Ross (Cambridge, USA)
Moritz Sokolowski (Bonn, Germany)
Martin Sterrer (Graz, Austria)
Christian Tusche (Jülich, Germany)
